2800 × 1200 mm

MASA is a table suitable for the office or home. It consists of a steel frame and a black top. The positioning of the signature forked legs provide optimal legroom and maximize functionality – easily dismantled, the base can be perfectly stacked, stocked and removed. The steel table frame is suitable for any chosen tabletop and available in various custom sizes and colors. The base's sleek silhouette and minimal details demonstrates the limits of simplifying material and design. The top surface consists of an innovative Nanotech HPL in matt black with black edges.
